

NURSERY NEWS 12

The Minibeast adventure has begun! Tiny caterpillars are in the nursery and we are finding lots of insects in the garden, especially ladybirds and ants. We have been learning all about caring for special little living animals and wonder of their movement and their tiny size left us in awe. Additionally, we became gardeners by planting beans and flowers, diligently watering them to encourage their growth. Tadpoles will arrive next week and we will learn about the frog life cycle. Other fun activities this past two weeks include sewing with thread and plastic needles, growing cress, painting and using mathematical language 'more' and 'fewer'.

Books

Mad about Minibeasts
The Very Hungry Caterpillar
Monkey Puzzle
Selection of non-fiction books about minibeasts.

Reminders and Info

May 7th is Polling Day. Nursery and Reception will be closed.

Please label water bottles.

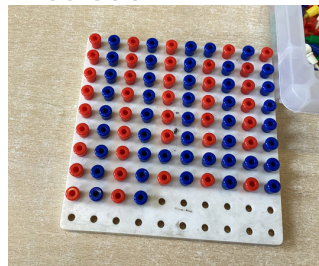

Remember to return the bag of spare clothes for your child. We will be doing lots of water play and may get wet!
